LODESTAR® NEXT GENERATION

The Benefits of Superior Design

LESS MAINTENANCE & EASIER INSPECTION

- Heavy Duty DC Brake is designed for a long service life. Brake location allows for quick access and easy inspection.
- Lifetime grease-lubricated Gear Box means no oil change out is required.
 Precision gears provide better wear and longer life.
- Clutch located outside the Gear Box allows for easy access which eliminates the need for complete disassembly and reduces downtime.

IMPROVED SERVICEABILITY

Easy access to the Clutch, Motor, Electrical Control Panel and Brake Assembly.

LONGER SERVICE LIFE

Lifetime grease-lubricated Gear Box and helical gearing ensures efficient operation. Heavy duty rated motors. Hoist workmanship backed by a lifetime warranty.

QUIETER OPERATION

80% reduction in sound pressure as compared to the classic Lodestar.

IMPROVED LOAD SAFETY

Clutch is located outside the load path which prevents slipping of the load in an overload condition when brake is not powered.

IMPROVED CHAIN LIFE

5 Pocket Lift Wheel provides better chain and lift wheel engagement for smoother lifting and reduced vibration — which equates to less wear and a longer chain life. Zinc plating to protect chain from environmental conditions.

EASY ACCESS CONTROL PANEL

With finger-safe wiring and plug and play connectors, the Control Panel allows for quick voltage change, access to terminal strips and simple fuse installation.

EXCEEDS H4 REQUIREMENTS

Lodestar exceeds H4 requirements, engineered for high duty cycles and the toughest applications.

ECO-FRIENDLY

Lifetime grease-lubricated
Gear Box means no changing
and disposing of hazardous oil.
Documented RoHS compliance.
Shipped in boxes made
of recycled material.

STANDARD FEATURES

CAPACITIES: 1/8 TO 3 TONS

FABRIC CHAIN CONTAINER & RIGID HOOK SUSPENSION Standard on every Lodestar

LIFETIME WARRANTY

The industry's best warranty against manufacturing and material defects.

METRIC RATED

CSA/US

National Recognized Testing Laboratory (NRTL)

MADE IN THE USA

OPTIONAL FEATURES

DOUBLE DC BRAKE

Two independent acting DC Brakes for redundant braking. Field Installation Kit available.

AC ELECTRIC BRAKE

VARIABLE SPEED DRIVE (VFD) OR TRADITIONAL 2 SPEEDS AVAILABLE

PRIMARY & SECONDARY TRANSFORMER FUSING

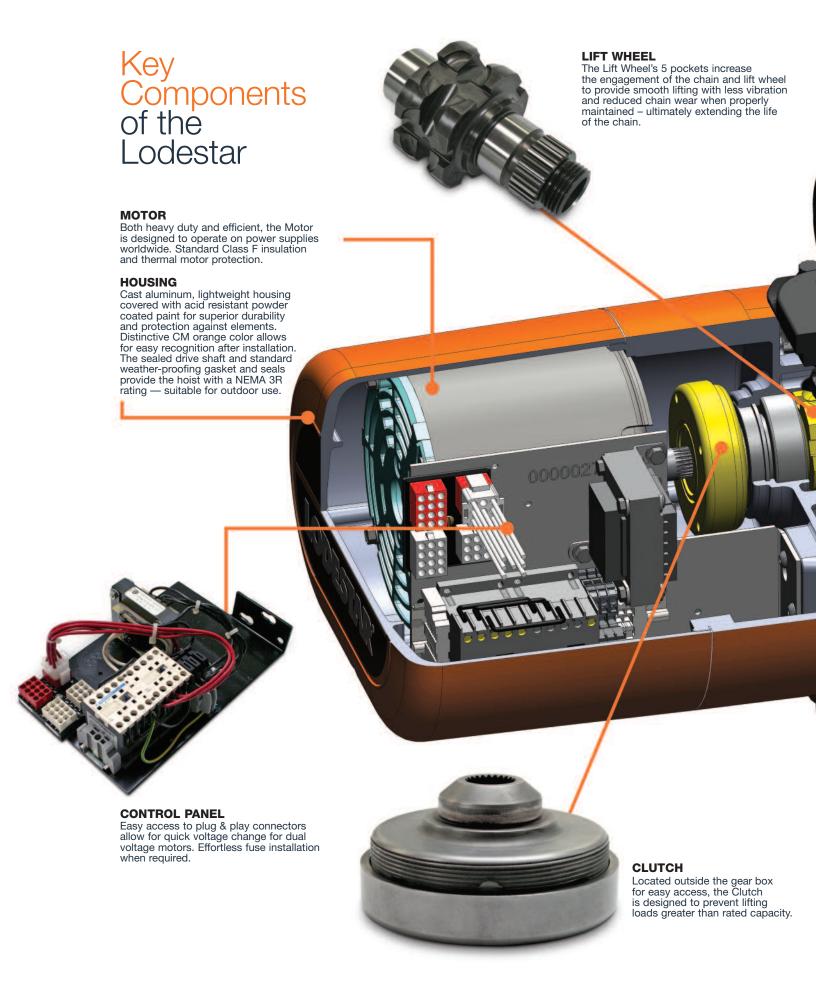

ROTATABLE LIMIT SWITCH

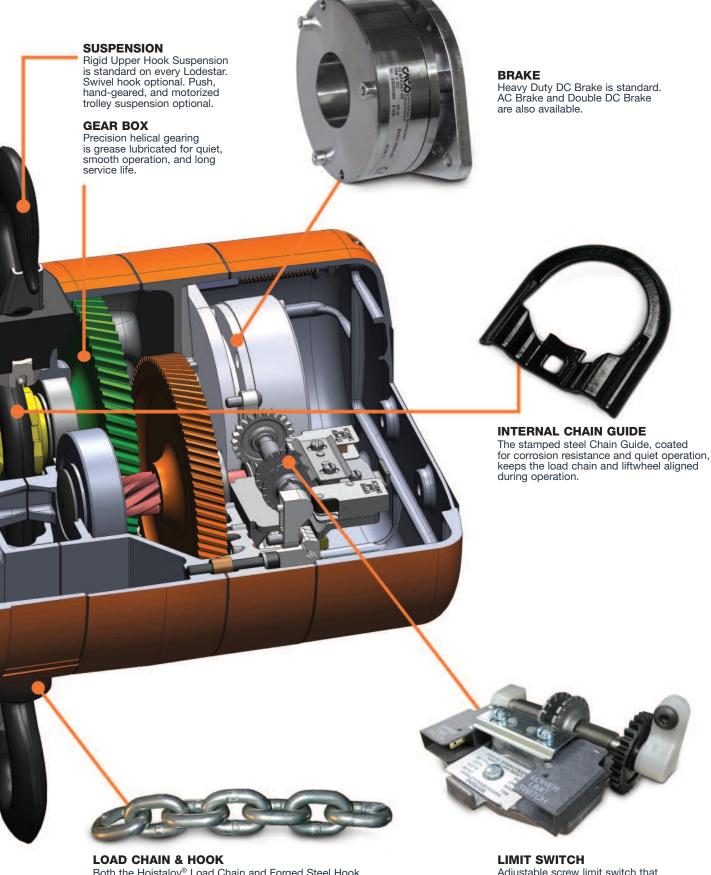

Designed for quick reset of limit position

BLACK PHOSPHATE OR STAINLESS STEEL LOAD CHAIN

METAL & STAINLESS STEEL CHAIN CONTAINERS

Both the Hoistaloy® Load Chain and Forged Steel Hook are manufactured in the USA by Columbus McKinnon. This ensures full compatibility and the highest quality control standards are meet at all times. Load Chain is zinc plated for protection against corrosion, and is 100% proof tested.

FABRIC CHAIN CONTAINER

Standard on every Lodestar

Adjustable screw limit switch that automatically stops the hook at any predetermined point when either lifting or lowering. Limits are field-configurable and can be adjusted to the specific application.

Items to Consider When Selecting Powered Hoists and Trolleys

- Capacity (lbs., tons, or kg.)
- -Lift (ft.or m)
- Lift speed (ft. / min.) (m / min.)
- Lifting medium (chain or wire rope)
- Power (electric, air, etc.)
- -Power cord length
- Push button cord length
- Type of suspension
- Type of trolley (manual, powered, plain, geared)
- Headroom requirements
- -Beam size and type
- -Trolley speed
- Trolley brake requirements
- Power Supply voltage
- Control voltage
- Single, two speed or variable speed
- Duty cycle requirements
- Special electrification needs
- Abnormal operating conditions
- Chain container

Improved load safety

Clutch is located outside the load path which prevents slipping of the load in an overload condition when brake is not powered.

Improved chain life

5 Pocket Lift Wheel provides better chain and lift wheel engagement for smoother lifting and reduced vibration — which equates to less wear and a longer chain life. Zinc plating to protect chain from environmental conditions.

Easy access control panel

With finger-safe wiring and plug and play connectors, the Control Panel allows for quick voltage change, access to terminal strips and simple fuse installation.

Exceeds H4 requirements

Lodestar exceeds H4 requirements, engineered for high duty cycles and the toughest applications.

Eco-friendly

Lifetime grease-lubricated Gear Box means no changing and disposing of hazardous oil. Documented RoHS compliance. Shipped in boxes made of recycled material.

LODESTAR®

ELECTRIC CHAIN HOIST

2-TON, SINGLE-REEVED

The CM[°] Lodestar[°] is now available as an economical 2-ton, single-reeved unit that's ideal for a variety of industrial lifting applications. And, because it's a single reeved unit, the design prevents the lower hook block from capsizing and damaging the hoist.

LESS MAINTENANCE & EASIER INSPECTION

- Brake location allows for quick access and easy inspection.
- Lifetime grease-lubricated Gear Box means no oil change is required.
- Clutch located outside the Gear Box allows for easy access which eliminates the need for complete disassembly and reduces downtime.

IMPROVED SERVICEABILITY

Easy access to the Clutch, Motor, Electrical Control Panel and Brake Assembly.

LONGER SERVICE LIFE

- Heavy-duty DC brake is designed for a long service life.
- Lifetime grease-lubricated Gear Box and helical gearing ensures better wear and smooth operation. Heavy-duty rated motors.

IMPROVED LOAD SAFETY

Clutch is located outside the load path preventing slipping of the load in an overload condition when the brake is not powered.

IMPROVED CHAIN LIFE

5-Pocket Lift Wheel provides better chain and lift wheel engagement for smoother lifting and reduced vibration equating to less wear and a longer chain life. Zinc plating protects chain from environmental conditions.

EASY ACCESS CONTROL PANEL

Finger-safe wiring and plugand-play connectors on the Control Panel allow for quick voltage change, easy access to terminal strips and simple fuse installation.

ZINC PLATED LOAD CHAIN

Designed and manufactured in the USA by Columbus McKinnon. 10 millimeter, zinc plated Star Grade load chain protects against corrosion.

ADJUSTABLE LIMIT SWITCH

Easy-to-adjust screw limit switch automatically stops the hook at any predetermined point when either lifting or lowering, preventing overtravel.

OVERLOAD PROTECTOR

Helps prevent lifting of dangerous overloads.

METRIC RATED

LIFETIME WARRANTY

The industry's best warranty against manufacturing and material defects.

FABRIC CHAIN CONTAINER

Standard up to 20 ft lift.

RIGID HOOK SUSPENSION

Lodestar electric chain hoist (2-ton, single-reeved)

THE CM® LODESTAR® IS NOW AVAILABLE AS AN ECONOMICAL 2-TON, SINGLE-REEVED UNIT THAT'S IDEAL FOR A VARIETY OF INDUSTRIAL LIFTING APPLICATIONS. AND, BECAUSE IT'S A SINGLE REEVED UNIT, THE DESIGN PREVENTS THE LOWER HOOK BLOCK FROM CAPSIZING AND DAMAGING THE HOIST.

STANDARD FEATURES

LESS MAINTENANCE & EASIER INSPECTION

CSA APPROVED

Single speed hook suspended models are CSA Approved as standard. For trolley-mounted models, please contact your CMCO representative.

^{*}Hoist only without suspension & chain container must be ordered through the configurator.
**Rigid hook suspension & fabric chain container are standard with hoist codes listed above.

Classic Lodestar electric chain hoist

The balanced, integrated, proven design of the Lodestar has made it the most popular electric chain hoist in the industry. Lodestar gives you more value for your money including:

- Quick change voltage board-change from low voltage to high voltage by simply re-positioning receptacle
- Up to 3 ton capacities for heavy-duty industrial applications
- Gear train lifetime lubricated with nonoxidizing grease
- Precision machined and hardened liftwheel with hardened chain guides for precise chain liftwheel fit
- Gearing designed for exceptionally long life and quiet operation
- H4 duty standard
- Rugged control station (NEMA 4X)
- Hoist duty motor, standard Protector overload device and standard adjustable screw type limit switches

- Hardened, forged steel, latch type hooks and Hoistaloy load chain for long, dependable service
- · Zinc plated load chain standard
- Easy to install and maintain
- No special tools required to disassemble
- Lifetime warranty
- Each hoist thoroughly inspected and tested to over 125% of rated load prior to shipment
- Meets ASME B30.16
- Metric rated
- Made in U.S.A.

Special applications

- Harsh environment hoists available for severe duty of plating, galvanizing and washdown applications
- Hoists with climbing capability available for temporary rigging or lifting applications — must be used in inverted position only
- Hoists with creep control allow precise positioning through field adjustment within the time delay range of .05 sec. to 3 sec.
- Articulating suspension 3 ton only

Note: 3 ton lug suspension prevents hoist from rotating but allows hoist to articulate below trolley

*AWARNING

Overloading and improper use can result in injury.

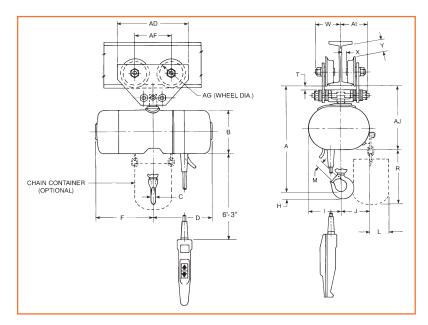

To avoid injury:

- Do not exceed working load limit, load rating capacity
 Do not use to lift people or loads over people.
 use only alloy chain for overhead lifting.
 Read and follow all instructions.

Fabric chain bag

CM's chain bags offer an alternative to the standard metal chain container for use with Lodestar or Valustar electric chain hoists. Chain bags are made from an open weave vinyl coated polyester designed especially for extended outdoor life. Not recommended for applications over 300°F, in extremely caustic environments or for chain weight exceeding 300 lbs.Features include:

- Flexible and lightweight material
- Dampens noise
- · Will not hold water
- Excellent resistance to ultraviolet rays, mildew stains, rot and weather
- Moisture resistant quick drying
- High tensile and tear strength
- Abrasion resistant
- No shrinkage
- Bags and brackets are suitable for chain weights up to 300 pounds
- Made in U.S.A.

[†] Advise if bucket length causes headroom problems, larger diameter shorter length buckets available.

^{*} E & H limit switch maximum is 60 ft.

When ordering, specify code number(s), model, capacity, beam size, power supply, suspension, lift, extra control cord or power cord (if required) and type of electrification (if required).

Lodestar XL electric chain hoist

Columbus McKinnon offers the Lodestar XL electric chain hoists for lifting applications from 2 to 71/2 tons. The heavy-duty hoist features faster speeds, less reeving, and higher capacities than traditional chain hoists. Workers in automotive plants, heavy equipment manufacturing, paper mills, and related rugged work environments will experience the same dependability and versatility that they have relied on for many years.

The NEW features of the Lodestar XL Electric Chain Hoist include:

- Lifting capacities up to 7½ tons
- Increased lifting speeds throughout the line
- Double reeved units with 3-5 ton lifting capacities
- Maximum lifting speed of 30 feet per minute

A glimpse of the many features of the Lodestar XL that have honed its reputation for durability and long life:

- Heavy-duty, multiple disc braking system
- Forged ten-pocket oblique-lay liftwheel for smooth chain operation, constant chain speed, and reduced chain wear
- Gearing operated in oil bath for increased lifting life and quiet operation
- Rated H-4, heavy-duty
- Standard overload protector
- Adjustable screw-type limit switches
- Thermally protected motor
- Factory tested at 125% of rated capacity
- Made in U.S.A.
- · Lifetime warranty

Man Guard electric chain hoist

INTRODUCING THE CM MAN GUARD WITH CAPACITIES OF UP TO 3 TONS.

Columbus McKinnon Corporation, an industry leader in quality lifting and positioning equipment for hoist operators around the globe, presents CM Man Guard.

CM Man Guard electric chain hoist stays true to its name by providing operator safety through superior overload protection. The Man Guard hoist's overload clutch prevents lifting loads beyond capacity which may result in serious injury to the operator, or catastrophic damage to the hoist, load and supporting structure.

Made in the USA, Man Guard is designed for a long and dependable service life for heavy duty applications. Additionally, with its environmentally friendly design, easy access to key components, less maintenance, and enhanced safety feature, the Man Guard is the right choice for your lifting needs.

CM Man Guard is available as an individual unit or as an integral component of a complete lifting system.

Capacities: 1/4 to 3 Tons

Standard Lift: 10 feet Additional lifts available

Lifting Speed: 5 to 32 FPM

Hook Suspension

AC Power Supply 115/230 1-60 HZ; 230/460 3-60 reconnectable voltage

Built-In Compliance with ASME/ANSI B30.16, ASME HST-1 and NEC electrical codes

Made in the U.S.A.

The CM Man Guard overload clutch prevents lifting beyond load capacity, which may damage the hoist or supporting structure or cause injury to the operator.

READY FOR HEAVY DUTY APPLICATIONS

H4 duty motor classification rated for heavy duty use.

LONGER SERVICE LIFE

- Class F insulation and thermal switch in motor winding reduces motor overheating and increase life.
- Helical Gears are oil bath lubricated which provides better wear and extends gear life while reducing noise.
- Powder coat painted housing and corrosion resistance zinc plated chain provides superior protection against the elements.
- Hard-wired power and pendant cords reduces risk of corrosion and loose connections.

IMPROVED SERVICEABILITY

- Open design allows quick access to AC Brake's one step adjustment.
- Easy access to Control Panel and simple wiring change to switch voltages from 115 to 230V for single phase applications.

SUPERIOR LOAD CONTROL

Optional Variable Frequency Drive (VFD) with 3 Step infinitely variable pendant allows operator to adjust lifting speeds without interruption. Many competitors only offer a 2 Step pendant requiring service interruption to change lift speeds.

ECO-FRIENDLY ENERGY SAVER

Efficiently designed gear train allows a smaller horsepower motor to operate at the same speeds and duty as our competition and reduces energy consumption. Shipped in boxes made of recycled material.

LIFETIME WARRANTY

HOISTS SHIP IN 3 DAYS OR LESS – GUARANTEED

Select models are eligible for our In-Stock Guarantee.

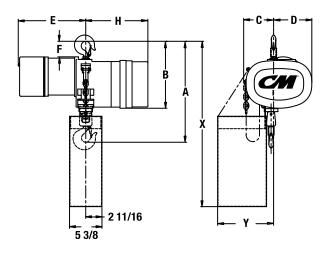

Man Guard electric chain hoist - Specifications

VFD OPTION

- Variable speed control with single speed motor. VFD located completely under the cover.
- 10:1 speed ratio permits precise positioning for load spotting.
- 3-step infinitely variable push-button control offers acceleration and deceleration for full load control.
- Minimizes high-starting current on motor which helps keep it cool extending life of motor, and increases motor run-time and starts/stops over standard contactor control.
- · Electronic reversing, multispeed operation (up to 3 steps) eliminates conventional magnetic contactors which are wearable components.
- Fault recorder helps troubleshoot various problems such as power related issues.
- 3 programmable outputs.
- Available Voltages: 380-460/3/60 and 208-230/3/60.

^{*} Maximum length for 3 phase model hoists. Consult factory for exact dimensions.
** Dimensions based on lifts through 10 ft. (all capacities) and increases proportionally with longer lifts.

ShopStar electric chain hoist

The ShopStar electric chain hoist features rugged construction and high H4 duty cycle. It keeps lifting and lifting, up to 1,000 pounds and 300 motor starts per hour. Additional features and benefits include:

- H4 duty cycle (300 motor starts/hour)
- · Easy installation and maintenance
- Standard protector overload device
- 10 pocket oblique lay liftwheel provides longer chain wear
- Epoxy powder coat finish
- $6\frac{1}{2}$ ft. power cord with molded 3 prong plug on 115 volt units
- NEMA 4 industrial rated control station
- Optional impact-resistant chain container available
- Gear train lifetime lubricated with non-oxidizing grease
- CM Hoist Alloy Load Chain (zinc plated optional)
- · Thermally protected hoist duty motor
- Dual braking system D.C. plus regenerative
- · Rugged cast aluminum alloy hoist frame
- Meets ASME B30.16
- Small, compact design for commercial & industrial applications
- Rigid hook suspension prevents tangling of power cord
- Hardened forged steel latch style lower hook rotates 360°
- Totally enclosed non-ventilated hoist frame protects motor from environmental contamination
- True vertical lift
- · Precision bearings used throughout hoist
- Lifetime warranty
- Made in U.S.A.

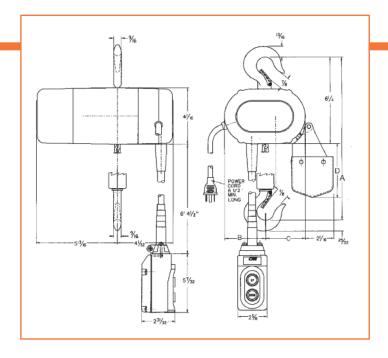

*AWARNING

Overloading and improper use can result in injury.

To avoid injury:

- Do not exceed working load limit, load rating capacity
- Do not use to lift people or loads over people.
- use only alloy chain for overhead lifting.
- Read and follow all instructions.

ShopStar VS Variable Speed Electric Chain Hoist

The CM® ShopStar VS ™ variable speed electric chain hoist is built for rugged industrial and commercial applications where precision load control is critical. This durable hoist features a high H4-plus duty cycle and a compact design ideal for use at workstations and production lines. The ShopStar VS is a superior alternative to air hoists.

STANDARD FEATURES

RUGGED & DURABLE IMPROVED SERVICEABILITY

Thermally protected hoist motor. Rugged, cast aluminum alloy hoist frame and body feature durable epoxy powder-coat finish to protect against corrosion.

LOW MAINTENANCE

Gear train lifetime lubricated with nonoxidizing grease. Totally enclosed hoist frame protects motor from environmental contamination.

COMPACT DESIGN

Small, compact design makes hoist ideal for use in tight spaces and allows for easy installation and maintenance.

OVERLOAD PROTECTION

Standard overload device protects the hoist, operator and surrounding structure from damaging overloads.

LONG CHAIN LIFE

Durable CM Hoistaloy® Load Chain. 10-pocket, oblique-lay lift wheel for longer chain life.

SINGLE- & 3-PHASE VOLTAGE OPTIONS

100 to 240 volt single phase, 50 to 60 Hz.208 to 240 volt 3 phase. 460 volt and 575 volt 3 phase with optional transformer. 6-1/2 ft. power cord with removable molded, 3-prong 115-volt plug.

H4 PLUS DUTY CYCLE

With 300+ motor starts per hour and Class F motor insulation, the ShopStar VS outperforms the H3 rating of its major competitors.

5:1 DESIGN FACTOR

NEMA 4 INDUSTRIAL-RATED CONTROL SYSTEM

STANDARD RIGID-HOOK SUSPENSION

OPTIONAL FEATURES

VARIABLE CONTROLS

3-speed and 3-step infinitely variable controls for single and 3-phase applications.

DURABLE CHAIN CONTAINERS

Impact-resistant plastic/mesh or metal chain containers.

SWIVEL HOOK SUSPENSION

Swivel hook suspension rotates 360° for easy installation and positioning. Swivel hooks are available with latch and Latchlok® latch. Lug mount suspension is also available.

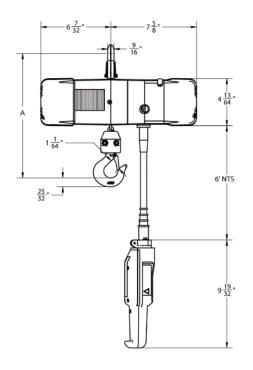

CM® ROCKET™ PENDANT

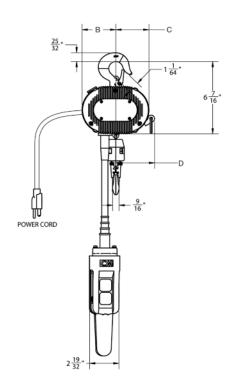

Engineered for maximum operator comfort, the CM Rocket delivers precision load control. Pendant features a unique rocker switch and comfort-fit design that increases safety and efficiency. Not available for 3-step infinitely variable hoist models. Pendant with emergency stop not available on ShopStar VS.

The CM ShopStar VS is ideal for applications in the Automotive, Heavy OEM, Utility and Energy industries. Choose this reliable hoist for light assembly workstations that require high speed and precision control lifting with light rail or trolley systems. In addition, the ShopStar VS is perfect for maintenance and repair applications demanding accurate load control or long lifts.

NOTE: Configurable codes and options available in addition to standard products shown above. Optional transformer required for 460-volt applications.

*AWARNING

Overloading and improper use can result in injury.

To avoid injury:

- Do not exceed working load limit, load rating capacity
 Do not use to lift people or loads over people.
 use only alloy chain for overhead lifting.
 Read and follow all instructions.

Valustar electric chain hoist

Designed specifically for general commercial applications. This compact, lightweight hoist features:

- Fully machined and heat treated liftwheel with hardened chain guides for smooth chain operation and reduced chain wear
- Standard lift 10, 15 & 20 ft.
- 5 ft. power cord length
- Heavy-duty caliper type AC brake
- Rugged NEMA 4 control station, 115 volt control circuit
- Easy to install and maintain
- Hoistaloy load chain for smooth operation and maximum chain life
- Efficient regenerative braking system to avoid heat generation in power train

- Enclosed hoist duty motor
- Gear train lifetime lubricated with non-oxidizing grease
- Latch type hooks
- Hook suspension standard
- Fully machined and heat treated gear train
- Standard overload Protector device
- H3 duty-1 phase; H-4 duty-3 phase
- · Lifetime warranty
- Metric rated
- Made in U.S.A.

Rocket Universal Pendant Control

The CM[®] Rocket[™] universal pendant control is engineered for maximum operator comfort, while delivering the precision control your application demands.

At the heart of the CM Rocket is a unique rocker switch that is ergonomically designed to reduce thumb strain and fatigue. The rocker switch gives the operator ultimate load control for micro-positioning applications, as well as increased safety and efficiency for hoist and machine operators. Its curved, well-balanced shape and ribbed grip help ensure the operator maintains a secure and comfortable hold.

The patented CM Rocket can be used for momentary operation of numerous types of industrial equipment, including hoists, conveyors, lift elevators and lift gates, mill drives, actuators and winches. This versatile pendant control is available in 4 configurations:

- Single-speed pendant
- Single-speed pendant with emergency stop
- 2-speed pendant
- 2-speed pendant with emergency stop

Experience the CM Advantage. Compared to the competitors' traditional straight grip and push-button configurations, the CM Rocket's comfort-fit design and responsive rocker switch give operators maximum control with minimal effort.

Specifications:

FITS YOUR HOIST & INDUSTRIAL EQUIPMENT

The adjustable rubber grommet easily accepts multiple power cable sizes from .33" to .64" diameter.

DUAL STRAIN RELIEF

The CM Rocket can be connected with internal or external strain relief.

CURVED, COMFORT-FIT DESIGN

Well-balanced design fits comfortably in the palm of your hand, requiring minimal wrist flexion for operation to reduce operator fatigue and hand strain.

RIBBED GRIP

Unlike the competitors' smooth grip, the ribbed construction of the CM Rocket's grip provides a secure hold in all environments.

DURABLE CASING

Pendant is made of durable ABS plastic that is shock, corrosion and moisture resistant.

MEETS HIGH PERFORMANCE STANDARDS

The CM Rocket pendant is NEMA 4/4X (IP65) approved for indoor industrial service only and temperature rated for indoor use at -0°C (32° F).

READY TO INSTALL

The Rocket pendant is easy to install and comes with everything you need to be up and running in minutes, including fasteners, labels, a cord warning tag and installation instructions.

OPTIONAL EMERGENCY STOP

Large emergency stop button is easy to operate with simple push-down, twist-to-release operation for compliance with OSHA-required safeguarding measures. Emergency stop is optional and available on single-speed and 2-speed pendants.

ROCKER SWITCH

Rocker switch requires minimal thumb movement and push force, reducing strain on thumb and hand. It allows the operator to control hoists and other industrial equipment with precision control and accuracy. The wide shape of rocker switch ensures easy operation with or without gloves.

PROTECTIVE GASKET

A rubber gasket seated under the rocker switch prevents environmental contaminants from entering the pendant.

RUGGED DIRECTIONAL INDICATORS

Directional indicators feature raised, non-slip ridges for ease of use and secure thumb placement. Ridges will not wear quickly, like the competitors' stickers or printed indicators.

UNIVERSAL DESIGN FITS YOUR HOIST

The CM Rocket pendant control was engineered to be used with virtually every electric chain hoist from Columbus McKinnon – simplifying the ordering process and making your inventory management easier.

The CM Rocket is available as an option on all of the hoists listed in the chart below.* And, for easy ordering, we've made it a standard option on one of our newest hoists, the CM ShopStar VS**.

All Rocket pendant controls come with a complement of adhesive decals that allow users to brand the pendant to match their Budgit, CM, Coffing or Yale hoist.

AFTER-MARKET AVAILABILITY

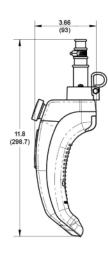

The CM Rocket is also available as an after-market product for use on CMCO and competitor hoists as well as conveyors, lift gates and other industrial equipment.

THE POWER OF INTELLIGENT LIFTING

Columbus McKinnon is one of the most respected and well-known names in the material handling industry. We combine two different yet complimentary areas of expertise – rigging products and hoists – to develop complete floor-to-ceiling lifting systems for even the most unique material handling applications.

Columbus McKinnon designs and manufactures a large portfolio of durable and reliable products for a variety of industries. Our portfolio includes powered and manual hoists, rigging products, below-the-hook attachments, cranes, enclosed track systems and specially engineered products.

KNOW HOW. KNOW WHY. BE SAFE. GET TRAINED.

Not only is Columbus McKinnon a leader in material handling products, we are also a global leader in providing expertise and training on the proper use and inspection of rigging and overhead lifting equipment. With a range of comprehensive programs and seminars conducted at venues throughout North America, including our hands-on training centers and private companies, our courses include:

- Hoist Maintenance
- Safe Hoisting
- Rigging

- Crane & Hoist Inspection
- Load Securement
- Rigging Gear Inspection

Crane Operator Training

Classes are available at our state-of-the-art, hands-on training centers, including the Niagara Training Center and the Hoist & Rigging Training Center of Excellence in the Center for Occupational Health and Automobile Manufacturing (COHAM) lab at The Ohio State University.

Rely on Columbus McKinnon for the products and expertise you need to keep your workforce productive and safe.
