

LNB-2...The Next Generation in Powered Lifts

Powered Lift Capability...2-Wheel Truck Simplicity

Lift'n Buddy LNB-2 Elevating 2-Wheel Hand Trucks make transporting and lifting items faster, safer and easier in any work environment. They combine the vertical lifting capabilities of a small powered stacker with the convenience, versatility and simplicity of a 2-wheel hand truck.

At the touch of a button, the LNB-2's powered, adjustable height platform positions loads at a comfortable height to eliminate bending and stretching when loading, unloading or moving items from one level to another. Built on a lightweight, durable aluminum frame with powder coat paint finish, the LNB-2 is extremely maneuverable and can lift loads of 200 lbs. up to 37". The LNB-2's lift mechanism incorporates a timing belt drive that is quiet and quick with a lifting speed of 4" per second. Two maintenance-free 12V rechargeable batteries provide ample power.

Use LNB-2 to transfer loads to shelves, workbenches, conveyors, processing equipment, delivery trucks, and customer vehicles in a wide range of facilities including manufacturing, warehousing, retail, office, medical, hospitality, commercial bakeries, repair/rental shops & more!

Base legs allow unit to stand even when raised under load.

Large 20" x 16" platform with load backrest and angled lip.

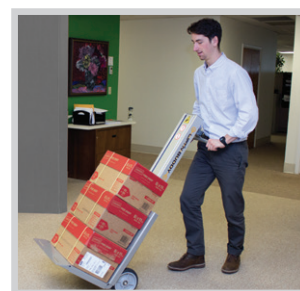

Platform slots for securing loads with bungees or straps.

Ergonomic handle with lifting and lowering thumb switch.

Kick axle for easy tilting of LNB-2 for load transport.

As simple to use as any 2-wheel hand truck.

Capacity	200 lbs. @ 10" L.C.
Vertical Travel	37"
Lifting Speed	4" per second
Platform Dimensions	20" x 16"
Backrest Dimensions	20" x 22"
Wheels	8" x 2"
Overall Dimensions	20" x 52" x 25"
Max. Raised Height	38 ¾"
Weight	70 lbs.
Maintenance-Free Batteries	2x12V 7Ahr
Battery Charger	110VAC/24VDC

Work Safe, Work Smart, Work Done...

Lift'n Buddy 5-Gallon Pail Lifter

The fast, safe, easy way to transport, lift and load 5-gallon pails

The Pail-Lifter is as easy to use as any two-wheel hand truck, but offers even greater convenience. Designed to handle 5-gallon pails of paint, construction materials, food, and other items it features a unique lifting yoke that securely supports pails during transport. Thumb operated lift controls are placed on the handle for easy access. Pails can be raised to an under clearance height of 35". By eliminating manual lifting, the risk of injury/ repetitive stress disorders is significantly reduced.

KEY FEATURES:

- Operates in narrow aisles - congested areas
- Picks pails from floor or pallets
- Integrated pail retainer
- Moves easily on any surface indoors or out
- Portable / lightweight - fits easily in any van or truck
- Unit is free-standing even when loaded and raised

Safely handle 3 pails at a time.

Tilts back for easy transport.

Lifting yoke holds pails in place.

Pail retainer keeps loads secure.

Lifting Capacity	200 lbs
Lift Carriage Travel	37"
Under Pail Clearance	35"
Overall Height	52" lowered / 82" raised
Lifting Controls	Thumb Switch
Wheels	8" solid
Maintenance Free Batteries	2X12V 7Ahr
Battery Charger	110VAC/24VDC

Work Safe, Work Smart, Work Done...

Keg-Lifter

Powered Lift Transporter

The ultimate tool for keg transporting, lifting and loading. Compact size, unmatched maneuverability, ease-of-use and **powered lift mechanism** make the Keg Lifter perfect for use in:

- Pubs and Restaurants
- Micro Breweries
- Beer Distribution Centers
- Liquor Stores
- Wholesale Clubs
- Function Halls and Catering Facilities
- Arenas and Stadiums

How it Works:

Simply wheel the Keg Lifter up to a keg until its sturdy lifting bracket positively engages the keg's top handle. The bracket design ensures the keg is held firmly and securely in place while lifting, lowering and transporting.

The Keg Lifter can be moved in two ways: for longer distances it tilts back like a conventional two-wheel hand truck; or in confined and congested spaces it can be maneuvered with all four wheels on the ground. The unit is freestanding even when loaded and lifted. Kegs are raised or lowered quickly by simply engaging the rocker style lift control which is conveniently mounted to the drive/steer handle for easy access.

Works with a wide variety of keg sizes and styles. Use it to stack or unstack kegs from one another; load shelves in store rooms, coolers or tap rooms; or load customer vehicles.

The Keg Lifter's battery provides ample power for a full shift and recharges quickly with the 110V charger included with each unit.

Specifications:

Load Capacity	175 lbs. (80 kg) / 1 Keg*
Load Type	1 Keg (1/2 & 1/4 Barrel, 50L)
Max. Lift Shuttle Travel	37.4 in / 950 mm
Under Keg Clearance	35 in / 889 mm
Cycle Time – Lift up	10 Seconds (No Load)
Weight	77 lbs. / 35 kg
Battery	2 x 12 VDC, 7.2 Ah, non-spillable
Charger	Input 120 VAC: Output 24 VDC, 2A
IP Class	IP41

*Half Barrel or Smaller

Keg-Lifter

Ergonomic handle with easy access lift and lowering controls

Lifting bracket holds kegs securely in place during transport and lifting

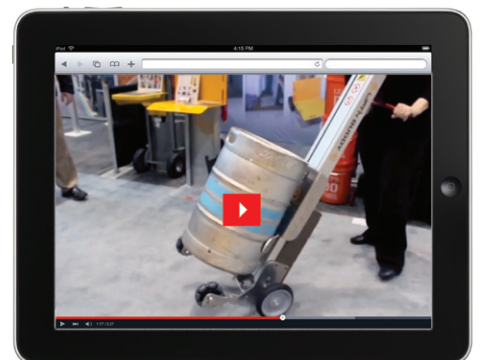

Small and highly maneuverable, it even works in cramped walk-ins

Works with a wide variety of keg sizes and styles

An optional shelf is available for handling cases
