

Lift'n Buddy Series 4™

Four - Wheel Powered Lift Transporters

 **LIFT'N**
BUDDY

The Lift'n Buddy Series 4™ combines the convenience of powered lifting with the stability and ease of use of a four wheel transporter. With capacities ranging from 185 lbs. to 450 lbs., they are ideal for a wide range of industrial, retail, laboratory, and office applications. The Series 4's mechanical lift mechanism uses a continuous lifting chain to provide precise load positioning with zero drift and no risk of hydraulic fluid leaks.

Unique narrow mast gives operators a clear view of where they are going. A short wheelbase and oversized wheels provide unmatched maneuverability, even in tight spaces.

Series 4 Advantages:

- ❑ Loads distributed over 4 wheels for maximum stability.
- ❑ Available with solid platform or lifting forks.
- ❑ Lift mechanism will not bind even with off-center loads.
- ❑ Lift controls mounted on steering handle. Tethered remote allows use from any position around the unit.
- ❑ Two lifting and lowering speeds for fast/precise load positioning.
- ❑ Battery charge indicator is easily visible.
- ❑ Onboard 115V battery charger.
- ❑ Ball bearing wheels roll easily on any surface and are equipped with toe guards for safety.

Available with platform or skid forks.

Comfortable padded grip handle

Battery status indicator

Mast shroud protects lifting chain

Swivel casters with toe guards

Two-button remote lift control

Model Number	Load Capacity	Raised Height	Lowered Height	Dimensions H x W x L	Platform W x L	Lifting Speed*	Power Unit
LNB4-185	185 lbs	56"	5"	63 x 23-1/2 x 31"	23-1/2 x 18-1/2"	17 sec	24VDC
LNB4-220	220 lbs	65"	5-1/8"	76 x 23-1/2 x 33"	23-1/2 x 18-1/2"	20 sec	24VDC
LNB4-450	445 lbs	52"	4-1/8"	63 x 22 x 40"	22 x 23-1/2"	22 sec	24VDC

*Speed of unit without load

Work Safe, Work Smart, Work Done...
