

GLIDE-OUT 100

WHEN DO YOU NEED A GLIDE-OUT?

- Floor space is too restricted to access racking with forklift
- Workers are leaning too far into existing shelving to hand pick heavy items
- Machine down time is excessive between die/tool changes
- Tooling, dies or material is too valuable to handle with forklift

- Stock parts are not visible due to deep shelving/racking
- Rack or shelf space is not being fully utilized
- Vertical storage space is wasted due to forklift
- Aisle way for a forklift takes up valuable storage/manufacturing floor space.
