

SHEET STACKER

RACK ENGINEERING DIVISION (RED)

SHEET STACKER

Rack Engineering Division's (RED) Sheet Stacker is a space saving solution designed for the metal fabrication industry. As an indoor or outdoor storage solution, the Sheet Stacker is perfect for fixture and sheet metal storage. With its built-in fork pockets, a single operator can handle the transportation of the removable pallets. This storage system offers an organized and secure way to access and transport sheet metal by forklift.

Customized pallet spacing, shelf quantities and capacities are available as standard options.

Sheet Stacker

STANDARD FEATURES

- Material Stops
- High Capacity
- Rear-loading
- Custom Shelf Quantities
- Custom Pallet Spacing

OPTIONS & ACCESSORIES

- Fork Risers on Shelves
- Multipurpose Combo Unit – Sheetmaster 100 can be added underneath the Sheet Stacker
- Pin Table – Used to remove material from shipping skids

ABOUT US

Rack Engineering Division (RED) specializes in the manufacturing of racking and storage solutions that are heavy duty and constructed to endure high capacities and tough industrial environments. Rack Engineering Division was originally founded in 1935 in response to an industry need for cost effective solutions to storage and handling problems for raw materials and tooling while helping customers save time and space by optimizing workflow. Since this time we continue to solve high capacity storage challenges with a quality product supported by a wide network of distributors and integrators throughout North America.

VERTICAL SHEET STORAGE SYSTEM

RACK ENGINEERING DIVISION (RED)

VERTICAL SHEET STORAGE SYSTEM

Rack Engineering Division's (RED) Vertical Sheet Storage System provides high density storage for the largest metal sheet, plate and remnants. The roll out shelves provide ergonomic access to sheets for movement via crane, hoist or vacuum. The unique design allows for any user to easily view the stored material for selection leading to less material waste. This unit is manufactured for each customer depending on their size and volume requirements. Weight capacities up to 2,000 lbs per shelf.

Custom shelf quantities, sizes, capacity and options are available to suit your storage needs, for additional information please contact Rack Engineering Division.

Vertical Sheet Storage System Expanded

STANDARD FEATURES

High density storage
100% Extension shelves
