

Stack-N-Go™

Compact Power Driven Stacker

Stack-N-Go™ powered stackers are versatile multi-purpose machines ideal for use as an adjustable height workstation to load and unload pallets, for transporting loads on pallets, or stacking loads up to 7' high.

- 3,000 lb capacity, 43" lift single stage mast units
- 2,500 lb capacity, 90" lift two stage mast units
- Narrow mast and offset handle provide maximum operator visibility
- Two stage mast unit offers extended lift without adding to lowered mast height
- Available in fork over and straddle styles
- Use in light manufacturing, warehousing, assembly and even retail facilities

Narrow mast and offset handle provide operators with an unobstructed view

Forks on straddle models are adjustable from 12" to 27" wide

Power provided by two 12 volt, 70 amp hour batteries and onboard 110 volt charger

Straddle legs are user adjustable from 40" to 50" inside dimension (ID)

Ergonomic handle has redundant left and right hand controls and auto reversing bump switch

Hour meter, battery status indicator, charger controls and emergency e-stop

Available in Fork Over and Straddle Styles

Fork Over with Narrow Mast and Offset Drive Handle

For use with open bottom pallet or skid

Model	Mast Style	Lifting Capacity	Lifting Height	Overall Height	Load Center	Fork Dim. Length/Width	Fork OD Fixed	Shipping Weight
FPS3000-43 NFO 21	1 Stage	3,000 lbs.	43"	66"	24"	45"/ 6"	21"	1100 lbs.
FPS3000-43 NFO 27	1 Stage	3,000 lbs.	43"	66"	24"	42"/ 6"	27"	1100 lbs.

24 volt system powered by two 12V / 70Ah batteries with onboard charger.

Straddle with Narrow Mast and Offset Drive Handle

For use with any pallet or skid, even closed bottom

Model	Mast Style	Lifting Capacity	Lifting Height	Overall Height	Load Center	Fork Dim. Length/Width	Fork OD Variable	Straddle ID Variable	Shipping Weight

FPS2500-90 NAS	2 Stage	2,500 lbs.	90"	111" fully extended	24"	42"/ 6"	12"- 27"	40"- 50"	1760 lbs.

24 volt system powered by two 12V / 70Ah batteries with onboard charger.

Stack-N-Go™ & PalletPal®...The Perfect Pair

When it comes to manually loading and unloading pallets, no one offers more tools to make the job faster, safer and easier than Southworth. Our PalletPal Level Loaders automatically lower or raise pallet loads as boxes are added or removed. A built-in turntable top allows all loading and unloading to be done from the near side.

A Stack-N-Go Compact Power Driven Stacker is the perfect device for placing fully loaded pallets onto or removing fully loaded pallets from a PalletPal.
